Residents should be aware that there is no limit to the number of outstanding taxes which needed to be paid. The scammer instructed the confused man who stated he was calling to discuss his outstanding federal taxes owed to the Internal Revenue Service. The equally confused officer who answered the phone obtained more details and recognized the man had been a victim of a telephone scam.

The officer determined that the victim was calling back the phone number that was displayed on his caller ID after hanging up on the scammer. The victim had just conversed with the scammer, who he described as a man with a foreign accent advising the victim had outstanding taxes which needed to be paid. The scammer instructed the victim to purchase Google and other brand name gift cards for the payment. When the victim questioned him, the buyer became irate and began to use profanity, at which time the victim hung up the phone. The victim then attempted to call back the number on his caller ID and reached the Parkville Precinct.
